

# PHYTON

**Phyton** is a concealed drive that opens and closes the door with a cable pull. It is designed for sliding doors on all vans and minivans. The drive is multifunctional, has a wide range of options, and the drive in the C-pillar ensures smooth and secure door closing. Available as standard for many minivans since 2022.

#### Advantages and features:

1. Gentle closing of the sliding door without slamming
2. The drive is completely concealed beneath the interior trim.
3. Full door opening as available and adjustable opening width
4. Five drive speeds can be selected
5. Safety systems:
  - Automatic door unlocking in the event of a collision/accident
  - Door locking while driving
  - Manual emergency opening
6. Options:
  - Door closer
  - Control module for door handle operation
  - Remote control
  - Protection strip system
7. Kits are available as standard for right-hand and left-hand sliding doors
8. The warranty period is 24 months.
